

AgentVault 15 Real Leads — Bonus Section

Jonathan Jaladi · Segment A: Retail Traders (8) · Segment B: Uni Blockchain Clubs (7)

Segment A Retail Traders — India & Crypto Twitter (8 leads)

All reachable via DM or public post. None are direct competitors. Avoid exchange-owned communities (WazirX, CoinDCX Discord) — those are competitors' turf.

01	Crypto Dost	YouTube — youtube.com/@CryptoDost	900k+ Hindi-speaking retail subs, reviews tools, trusted by Indian retail traders

□ Note: Avoided WazirX, CoinDCX, and Binance India Discord communities — those are exchange-owned, competitor territory. Better to reach traders on neutral platforms (Reddit, Twitter, YouTube).

Segment B University Blockchain Clubs — India (7 leads)

All have public LinkedIn presence. DM the club president directly — find them by searching the club name on LinkedIn and clicking 'People'.

#	Club / University	Where to Reach	Approach

11	IIT Madras Blockchain Club	LinkedIn + shastra.iitm.ac.in	Hosts Shaastra tech fest, blockchain vertical well established
12	BITS Pilani Fintech & Crypto Club	LinkedIn — search 'BITS Fintech Pilani'	Large alumni network, open to BD collabs, hosts Apogee tech fest

14	VIT Vellore Blockchain Club	LinkedIn — search 'VIT Blockchain'	1500+ members, hosts internal trading competitions already
15	NIT Trichy Tech Club (Web3 wing)	LinkedIn — search 'NIT Trichy Web3'	Growing Web3 wing, less saturated with outreach, higher reply rate

How to prioritise these 15:

Start with leads 08 (r/IndianStreetBets mod) and 13 (Manipal Blockchain) — both are highly active, community-driven, and likely to say yes fast. They're also the ones most likely to post about it if the session goes well, which gets you organic signups on top.

Leads 01–02 (Crypto Dost, Coin Crunch India) are bigger swings — harder to get but if they feature AgentVault, that's 100+ users from one post. Worth a cold DM even if conversion is lower.
